

# Love me tender

Your tender is your workhorse, your swim platform, your escape craft and possibly the stage for your moonlit serenades. They come in all shapes, styles and sizes. We have chosen a few of our favourites for all tastes and budgets.

## **SACS STRIDER 15**

With room below deck for a two-metre-high cabin, galley and head, this tender is a miracle of space utilisation. Even a king-size berth is located fore and there is a twin berth aft. Up on deck, settees and sun pads make this Italian design a sunbather's dream, while those who like to stay out of the sun will be glad to know the whole deck can be protected by awnings.
